# OUR APPROACH

Our classes in the morning include a variety of topics that will engage the children and encourage them to practise and learn English.

The themes are often about British culture and the experience of being in the UK. We can provide plenty of opportunities for the children to practise their speaking skills during the classes. All our materials and resources have been designed and collated by LanguageUK.

We try NOT to recreate the classroom environment the children might be used to back home, and our courses are not designed to engage the children in strict grammar instruction. However, we can provide some formal instruction if required.

# TESTIMONIAL

Family  
Programme

**'Our little family visited LanguageUK for 2 weeks during the German Easter holidays. Everything was very well organized. We were accommodated with a wonderful host family. The English lessons were very entertaining and a lot of fun. There was never a dull moment, so the 2 weeks flew by. We would like to come back again!'**
